PRIVACY AND DISCLAIMER NOTICE

The Church Foundation is committed to full legal compliance with respect to protecting the privacy of the information that you have entrusted to us. We do not disclose any nonpublic, personal, financial information about you to anyone, except as required by law. We restrict access to nonpublic, personal, financial information about you to those employees who need to know that information in order to provide products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal and state regulations to guard your nonpublic personal information.

Individuals should always consult several investment advisers and their attorneys to accurately determine the end-of-life program that is most suitable for their needs.

General Information

Planning for the future is essential if you want control of what happens to your family and loved ones after you're gone.

Appointing guardians for your children and dependents, appointing executors and trustees, and determining how you would like your earthly possessions distributed will afford peace of mind and relieve your loved ones from having to burden those decisions.

In the Episcopal Church we believe that your estate and end-of-life plans should reflect your values. That is why we suggest you consider the following three sections in the order presented:

- 1. "Medical Directive" appoints a Healthcare Proxy and gives instructions for how you would like to be treated if you are incapacitated.
- 2. "Funeral Planning." We suggest you design your funeral alongside writing your will. The funeral can then be a reflection of your life, a message to loved ones about your values and what was important to you.
- 3. "Estate Planning Once you have expressed your values through writing your funeral service, then write or amend your will so that it reflects those values.

Medical Directive

The Medical Directive comes into effect only if you become incompetent. Complete the form in the context of a discussion with a physician.

Following is a general form of medical directive reprinted with the permission of the American Medical Association.* Please note that many states have enacted legislation on advanced care directives. Please consult your attorney, healthcare provider, or state attorney general regarding requirements for healthcare directives in your state.

INTRODUCTION

As part of a person's right to selfdetermination, every adult may accept or refuse any recommended medical treatment. This is relatively easy when people are well and can speak. Unfortunately, during serious illness they are often unconscious or otherwise unable to communicate their wishes—at the very time when many critical decisions need to be made.

The Medical Directive allows you to record your wishes regarding various types of medical treatments in several representative situations so that your desires can be respected. It also lets you appoint a proxy, someone to make medical decisions in your place if you should become unable to make them on your own.

The Medical Directive comes into effect only if you become incompetent (unable to make decisions and too sick to make your wishes known). You can change it at any time until then. While you are fully competent, you should discuss your care directly with your physician.

I am undecided; I do not want this treatment should be indicated. If you choose a trial of treatment, you should understand that this indicates you want the treatment withdrawn if your physician and proxy believe that it has become futile.

The Personal Statement section allows you to explain your choices and say anything you wish to those who may make decisions for you concerning the limits of your life and the goals of intervention. For example, in situation B, if you wish to define "uncertain chance" with numerical probability, you may do so here.

Next you may express your preferences concerning organ donation. Do you wish to donate your body or some or all of your organs after your death? If so, for what purpose(s) and to which physician or institution? If not, this should also be indicated in the appropriate box.

In the final section you may designate one or more proxies who would be asked to make choices under circumstances in which your wishes are unclear.

COMPLETING THE FORM

You should, if possible, complete the form in the context of a discussion with your physician. Ideally, this should occur in the presence of your proxy. This lets your physician and your proxy know how you think about these decisions, and it provides you and your physician with the opportunity to give or clarify relevant personal or medical information. You may also wish to discuss the issues with your family, friends, or religious mentor.

The Medical Directive contains six illness situations that include incompetence. For each one, you consider possible interventions and goals of medical care. Situation A is permanent coma; B is near death; C is with weeks to live in and out of consciousness; D is extreme dementia; E is a situation you describe; and F is temporary inability to make decisions.

For each scenario you identify your general goals for care and specific intervention choices. The interventions are divided into six groups:
1) cardiopulmonary resuscitation or major surgery; 2) mechanical breathing or dialysis;
3) blood transfusions or blood products; 4) artificial nutrition and and hydration; 5) simple diagnostic tests or antibiotics; and 6) pain medications, even if they dull consciousness and indirectly shorten life. Most of these treatments are described briefly. If you have further questions, consult your physician.

Your wishes for treatment options: I want this treatment; I want this treatment tried but stopped if there is no clear improvement;

You can indicate whether-or-not the decisions of the proxy should override your wishes if there are differences. Additionally, should you name more than one proxy, you can state who is to have the final say if there is disagreement. Your proxy must understand that this role usually involves making judgments that you would have made for yourself had you been able and making them by the criteria you have outlined. Proxy decisions should ideally be made in discussion with your family, friends and physician.

WHAT TO DO WITH THE FORM:

Once you have completed the form, you and two adult witnesses (other than your proxy) who have no interest in your estate need to sign and date it. Many states have legislation covering documents of this sort. To determine the laws in your state, you should call the state attorney general's office or consult a lawyer. If your state has a statutory document, you many wish to use the Medical Directive and append it to this form.

You should give a copy of the completed document to your physician. His or her signature is desirable but not mandatory. The directive should be placed in your medical records and flagged so that anyone who might be involved in your care can be aware of its presence. Your proxy, a family member, and/or a friend should also a copy. In addition, you may want to carry a wallet card noting that you have such a document and where it can be found.

This Medical Directive shall stand as a guide to my wishes regarding medical treatments in the event that illness should make me unable to communicate them directly. I make this directive, being 18 years or more of age, of sound mind, and appreciating the consequences of my decisions. Situation A

If I am in a coma or persistent vegetative state and, in the opinion of my physician and two consultants, have no known hope of regaining awareness and higher mental functions no matter what is done, then my goals and specific wishes—if medically reasonable—for this and any additional illness would be: (Please select one of the following options) ☐ Prolong life; treat everything ☐ Attempt to cure, but reevaluate often ☐ Limit to less invasive and less burdensome interventions ☐ Provide comfort care only ☐ Other (please specify): WANT DON'T **WANT UNDECIDED** (Stop if no **WANT** improvement) 1. Cardiopulmonary Resuscitation (chest Compressions, drugs, electric shocks, and artificial breathing aimed at reviving a person who is on the point of dying. 2. Major surgery (for example, removing the П П gall bladder or part of the colon). 3. Mechanical breathing (respiration by machine, through tube in the throat). **4. Dialysis** (cleaning the blood by machine or by П fluid passed through the belly). 5. Blood transfusions or blood products. 6. Artificial nutrition and hydration (given through a tube in a vein or in the stomach). 7. Simple diagnostic tests (for example, blood П tests or x-rays). 8. Antibiotics (drugs used to fight infection). 9. Pain medications, even if they dull П consciousness and indirectly shorten my life. Notes:

Situation B

If I am near death and in a coma and, in the opinion of my physician and two consultants, have a small but uncertain chance of regaining higher mental functions, a somewhat greater chance of surviving with permanent mental and physical disability, and a much greater chance of not recovering at all, then my goals and specific wishes, if medically reasonable, for this and any additional illness would be:

If I have a terminal illness with weeks to live, and my mind is not working well enough to make decisions for myself, but I am sometimes awake and seem to have feelings, then my goals and specific wishes—if medically reasonable—for this and any additional illness would be:

I appoint as my proxy and decision-maker(s): (Name & Address)
& (optional) (Name & Address)
I direct my proxy to make healthcare decisions based on his/her assessment of my personal wishes. If my personal desires are unknown, my proxy is to make healthcare decisions based on his/her best guess as to my wishes. My proxy shall have the authority to make all healthcare decisions for me, including decisions about life-sustaining treatment, if I am unable to make them myself. My proxy's authority becomes effective if my attending physician determines in writing that I lack the capacity to make or to communicate healthcare decisions. My proxy is then to have the same authority to make healthcare decisions as I would if I had the capacity to make them, EXCEPT (list the limitations, if any, you wish to place on your proxy's authority).
I wish my written preference to be applied exactly as possible/with flexibility according to my proxy's judgment. (Delete as appropriate)
Should there be any disagreement between the wishes I have indicated in this document and the decisions favored by my above-named proxy, I wish my proxy to have authority over my written statements/I wish my written statements to bind my proxy. (Delete as appropriate)
If I have appointed more than one proxy and there is disagreement between their wishes,
shall have final authority.

Christian Faith Calls

The Christian faith calls us to witness, even in death, the new life that God gives in Christ through his death and resurrection.

We have prepared this booklet to help you and your family prepare in advance. It will enable your family and the parish clergy to understand your wishes and preferences. The clergy will help plan the service and will stand ready to assist in any way.

Christian burial is marked by three characteristics. First and foremost, it is an act of worship wherein we glorify God for the gift of eternal life in Jesus Christ, our Lord. Second, it is a time when members of the Body of Christ gather to comfort one another and to offer mutual assurance of God's abiding love. Third, it is a liturgy of celebration whereby we give thanks for a deceased loved one and commend that person to the care of Almighty God.

The earliest records of Christian burial tell us that the following elements were included:

- Prayer in the home before the burial
- A gathering of the community for a burial service, consisting of thanksgivings, psalms, hymns, readings from Scripture, and prayers for the departed and those who mourn
- Celebration of the Holy Eucharist
- A procession of lights and torches to the place of burial
- The interment of the remains

As part of preparation for Christian burial, it is suggested that you talk with your clergy. It is also of great benefit to read about the service in The Book of Common Prayer (BCP, 468–507). The rubrics on these pages are of particular interest. It is also recommended that people familiarize themselves with prayers for "Ministration at the Time of Death" (BCP, 462–467).

"Do not neglect to do good and to share what you have, for such sacrifices are pleasing to God."

Writing a will is a loving and responsible act for the sake of your family. Here are a few helpful suggestions on how to prepare to write your will.

BEFORE SEEING AN ATTORNEY...

- Make a list of everyone for whom you are responsible.
- List everyone that you would like to remember in your will.
- List all of your material assets.
- After subtracting your debts, match the names with the assets or consider giving a portion of your total estate to each individual. Take care of your family first. This is also the time to consider special friends and your church.
- Consider establishing a trust if your estate is large enough.
- Ask your chosen estate administrator (sometimes called executor/executrix) if he or she is willing to serve.
- Consult with the people you select as guardians of your children (where minors and other dependents are involved).
- Talk with your priest to explore the ministries of the church that could best be funded with a gift from your will.

BEQUESTS IN YOUR WILL CAN TAKE SEVERAL FORMS ...

- An outright monetary bequest.
- A percentage of an estate.
- A specific asset, such as personal or real property.
- A testamentary trust created in a will.
- A contingent beneficiary, i.e., the church receives the assets if there are no surviving beneficiaries.
- Note: A bequest to the church is deductible from the value of your estate for tax purposes.

AFTER MAKING YOUR WILL...

- Make sure someone knows where your will is located.
- Do not place funeral instructions in a safe- deposit box. Generally, services will be over by the time your administrator checks your bank box. Instead, leave a copy of your funeral plans and wishes with your priest and a member of your family.
- Review your will from time to time with your legal advisor. Laws, assets, and personal interests often change over time.

Including a Christian Preamble

A Christian preamble to your will provides a significant opportunity to share your faith with family and friends. Through this personal statement of your faith, an important message will be delivered to those who love and know you best. This message of faith comes at a time of grief and loss and serves as a reminder to them to place their trust in Jesus Christ as you have. Remember, this may be the last document they read about you, their loved one.

As you, together with your attorney, prepare your will/estate plan, give prayerful consideration to adding a Christian preamble such as:

l	, of the City	
of	, County of	, and
State of	, being of sound mind and memor	y and being under no
restraint, do make, declare and pu	ıblish this my last will and testament, hereb	y revoking all wills and
codicils heretofore made by me. Ir	n thanksgiving to God for the gifts of life giv	ven in baptism, and for
the many blessings God has show	ered upon me; and in thanksgiving to God t	for the gifts of faith
and hope through Jesus Christ; an	nd in thanksgiving to God for the gifts of nu	rture and love through
the Church where we have shared	d faith and fellowship; I now commend my l	oved ones to grow in
this same faith, being true to their	r own baptisms, knowing that God will cont	inue to provide for
them in their lifetimes; I encourag	e them to place their faith and trust in our	Lord and Savior.
/The mouth out one of the could be	fallow looving sifts to family and friends by	

(The particulars of the will would follow, leaving gifts to family and friends, but also an articulation of the gifts you might leave to the various ministries of the Church).
